Objective:

Aspiring Software Engineer currently pursuing MCA with strong foundations in Java, Python, and full-stack web development. Experienced in building applications using React, Node.js, and databases such as MySQL and MongoDB. Interested in software development, automation, and building scalable systems, with a passion for solving real-world problems and learning new technologies.

Technical Skills:

Programming Languages: Python, Java, C, C++

Frontend: React.js, Flutter, HTML, CSS, JavaScript

Backend: Node.js, Express.js

Databases: MySQL, MongoDB, Firebase

Tools & Practices: GitHub, Vercel, REST APIs, Postman, Networking Fundamentals, Operating Systems Basics

Projects:

GROCEROO – Online Grocery Shopping Platform [\[Repo\]](#)

- Developed a web-based grocery shopping platform enabling users to browse products, manage carts, and place orders
- Designed and implemented a relational database schema using **MySQL** for product management, user authentication, and order tracking
- Built responsive user interfaces using **HTML, CSS, and JavaScript** to enhance usability and accessibility
- Implemented backend functionality using **PHP** and managed database operations through **phpMyAdmin** for efficient data handling

MealDB Recipe Finder App using React & API Integration [\[Repo\]](#)

- Developed a **React.js web application** that fetches and displays meal data dynamically using **TheMealDB REST API**
- Implemented **search functionality, category filtering, and detailed recipe pages** to enhance user experience
- Designed a **responsive UI with React components and modern CSS** for seamless performance across desktop and mobile devices

AI-Powered Chicken Weight Estimation System [\[Repo\]](#)

- Developed an **AI-based system to estimate chicken weight using image processing and machine learning techniques**
- Implemented computer vision methods to analyze poultry images and extract features for weight prediction
- Built and tested predictive models to improve estimation accuracy and automate poultry weight monitoring

Education:

M.C.A, Master of Computer Applications – NMAM Institute of Technology, Nitte (2024-2026)

B.C.A, Bachelor of Computer Applications – Canara College, Mangalore (2021–2024)

Certificates:

- Full Stack Web Development Internship – Accolade (1 Months)
- Introduction to MongoDB – Coursera (4 Weeks)
- Async JavaScript Course – Coursera (2 Weeks)
